

Download 1998 A6 Ecu Program Guide

The APR 2.7T ECU Upgrade is an expertly recalibrated engine control strategy that remaps the boost pressure, timing and air fuel ratios to provide smooth and reliable power as if intended by the OEM. The APR Audi R8 4.2L FSI V8 ECU Upgrade is an expertly recalibrated engine control strategy that remaps the timing and air fuel ratios to provide smooth and reliable power as if intended by the OEM. UniConnect+ offers consumers the ability to reflash their ECU (Engine Control Unit) or TCU (Transmission Control Unit) right from home. Gone are the days of having to drive to a shop to do this! Our forum member GeoJoe recently installed the Travall Guard system in his Q7, and was nice enough to share his experience with us! The fine folks at Travall have made an easy to install and effective barrier for the Audi Q7.
